1. Program Vision

The Nursing Department works to be able and distinguished to make university nursing serve and educate society in accordance with international health standards and in accordance with the directions and aspirations of Al-Safwa University, and for the Nursing Department to occupy a distinguished and prominent position among the college's departments and to compete with nursing departments in Iraqi private colleges.

2. Program Mission

The Department of Nursing at Al-Safwa College has undertaken, with all sincerity and dedication, to create and prepare distinguished nursing cadres who possess the theoretical nursing sciences and practical skills competent to work in health institutions and the preventive, curative and rehabilitative health care sectors for the individual and society through preparing nursing cadres and preparing an elite group of graduates capable of advancing the nursing process.

3. Program Objectives

The department aims to achieve its vision through the following objectives:-
1- Working to provide health institutions with nursing cadres with high scientific and practical capabilities in accordance with the latest findings in nursing science.
2- Spreading health awareness in society through graduates' contributions to community health awareness.
3- Encouraging and urging nursing cadres to conduct nursing research in health institutions and participate in conferences, seminars and workshops held inside and outside the college.
4- The ability to understand scientific theories in nursing and the possibility of applying them practically.
5- Developing the capabilities of graduate students for self-development through communication and exposure to modern methods in the world regarding nursing work.
6- Developing students' capabilities, decision-making skills, and the ability to solve problems they face in the field of work.

4. Program Accreditation

Work is underway to apply for program accreditation

5. Other external influences

No influences

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institution Requirements	**43**	**136**		basic
College Requirements	**Yes**			
Department Requirements	**Yes**			
Summer Training	**2**			
Other				

* This can include notes whether the course is basic or optional.

	NUR409	Critical care	٢	١٢
	HPN410	Health psychology	٢	٠
	NOR411	Graduate project	٠	٣

8. Expected learning outcomes of the program

Knowledge	
Learning Outcomes 1	Students' knowledge of all nursing procedures that must be applied in different hospitals
Skills	
Learning Outcomes 2	Applying nursing procedures to different patients and all ages
Ethics	
Learning Outcomes 4	Not disclosing professional secrets and dealing with ethical values with the patient
Learning Outcomes 5	Maintaining the patient's health and making efforts to eliminate risks

9. Teaching and Learning Strategies

1- Giving theoretical lectures in classrooms
2- Giving practical lectures and experiments in medical laboratories
3- Giving lectures and clinical training in hospital lobbies
4- Make seminars for discussion with students

10. Evaluation methods

Conduct weekly quick tests during lectures
Directing students to submit weekly reports in assignment form
Conducting mid-semester and end-of-semester tests to measure students' knowledge

Professional Development
Mentoring new faculty members
Involving them in work committees within the department and directing them to the mechanism of administrative dealings with the Deanship of the College and the Department Headship
Professional development of faculty members
Urging teachers to: 1- Commitment to the timing of lectures, recording attendance, and submitting lists of absences to the department head 2- Urging teachers to conduct at least one research per year 3- Each teacher was asked to evaluate his performance at the end of the academic year

12.**Acceptance Criterion**
Anyone who wants to register in the nursing department must possess one of the certificates **1- Preparatory school certificate/scientific branch** **2- Nursing preparatory certificate**

13.**The most important sources of information about the program**
- Medical surgical nursing 5th ed. LeMone, Burke and Bauldoff.

14.Program Development Plan
Creating postgraduate studies in nursing
